

Dear Friends,

Subject: Certification Course for Security Professional Certification (SPC).

The details herein are self-explanatory.

The Certification Courses conducted by IISSM are widely known and acknowledged. In order to meet the increasing demand from practising executives, it is proposed to organise five (5) such Courses in 2010, all in New Delhi for the present, as per the schedule below. The venue is the Conference Room of IISSM Office complex. Suitable number of participants will be accommodated in each batch on the basis of first come first serve.

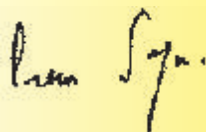

- i) February 10-13, 2010
- ii) April 21-24, 2010
- iii) July 7-10, 2010
- iv) August 25-28, 2010
- v) October 20-23, 2010

We wish to clarify that the change in the nomenclature of the programme to SPC has been necessitated because of unavoidable circumstances. And let it also be noted that there will be a suitable test to judge successful completion of the Course by individual participants.

Going by what the vast majority of participants have gone on record, we do sincerely hope those attending the current programmes will also find these highly useful. All concerned are, therefore, welcome to join this programme along with others whom they think would be in a position to benefit from it at this level.

With warm regards,

Yours sincerely,

Lt. Gen (Retd.) Prem Sagar
Executive President & CEO

Vision

The International Institute of Security and Safety Management (IISSM) aims at acting as a catalyst to promote excellence in private security industry through development of professional standards for training and certification for individual institutions and corporates.

Objectives

IISSM aims at:

- ✓ *“Professionalise the Profession” by promoting excellence in private security industry through development of training standards and curriculum for various levels of security professionals.*
- ✓ *Conducting regular workshops / seminars on topical security subjects.*
- ✓ *Organising events / conferences to create common platform for security providers, users, manufactures, suppliers and consultants.*
- ✓ *Recognition of extra-ordinary achievements of individuals / institutions / corporates through annual award programmes.*
- ✓ *Creating a global platform for networking security professionals.*
- ✓ *Career counselling in general.*

About Organisers

The International Institute of Security and Safety Management (IISSM) is an educational organisation registered under the Indian Societies Act. It is devoted towards promoting professionalism among security and loss prevention practitioners and creating all round security awareness and consciousness amongst personnel in the related management cadre. It has an elaborate Professional Certification Programme for security and safety practitioners and consultants and also bestows Fellowship on selected professionals. It has been organising International Seminars, at times accompanied by Exhibitions, every year since 1991, attracting a large number of security and loss prevention professionals from India and abroad. Faculties in these Seminars comprise well-known experts drawn from all over the world.

Programme Objectives

With increasing market demands, fresh university graduates and experienced individuals from diverse backgrounds are taking to security and safety as a profession, which is good for the security industry. Besides, those already in security and safety industry are also keen on knowledge enhancement/updation through professional training programmes. Many, therefore, look forward to institutions outside India to acquire some professional degree or certification. In order to meet this demand indigenously, IISSM has been running this Professional Certification Programme to cater to a diverse audience from far and wide.

The Programme runs over a four-day curriculum that is designed to cover the basic security concepts, best practices and principles of management in an intensive manner. Participants successfully completing the Course and depending on their performance in the test at the end of the Programme are awarded Professional Certification, namely, **SPC - Security Professional Certification**.

Who Should Attend

- ✓ Chiefs of Security and other senior executives in Private & Public Sector establishments
- ✓ Heads of Administration overseeing security & safety functions
- ✓ Entrepreneurs desiring to run and manage their own companies
- ✓ Security Consultants

Eligibility Criteria

- ✓ A graduate from a recognised university.
- ✓ Serving security and safety practitioners with minimum of four years' experience in security industry.

Methodology

- ✓ The training will be through a judicial mix of lectures, case studies, analytical discussions and practical exercises with participants.
- ✓ The programme will be primarily based on power point presentations.
- ✓ Relevant learning resources would be provided.

Faculty

The course faculty will be reputed security experts and practising executives with years of experience.

Course Benefits

IISSM's Professional Certification, highly regarded in the profession as it is, adds to the career value of security and safety practitioners. They will have more professional respect and acceptability in the competitive market for betterment of career prospects.
