OBJECTIVE

Today's Security professionals are at the precipice of uncertainties of times due to cruel business environments. Crisis may occur at any point of time as best of the companies are moving from physical guarding based security system to high end technology based systems which are based on Information systems. In addition, it may be possible that position of Chief Security Officer (CSO) be scrapped and taken over the CISOs. Now-a-days many of the Security officers are B.Tech (Computer Science) who need to upgrade themselves with the latest systems and practices, so that they can aspire to be upgraded as CISOs in due course.

DESCRIPTION

The training will be through a judicious mix of lectures, presentations, analytical discussions on a virtual classroom mode to cover the following:

- Information Security and Data Protection, Cyber Threats and Vector of Attack.
- Information Security, Governance and Framework.
- Info Security Risk Management.
- Digital Transformation, Disaster Recovery and Incident Response Management.
- Cloud Computing, Endpoint Security, DLP and ERP Management.
- Blockchain Technology.
- AI, Big data and IOT Security.
- Cryptography and Ethical Hacking
- IT Laws and Indian Cyber Security Organisation and Policy.
